

NORTH AMERICAN HYDRAULICS

Open Loop Solutions

Providing Customer-Driven Solutions

North American Hydraulics, NAHI, LLC offers Open Loop Solutions for any Mobile and Industrial Application.

Features and Options:

- Advanced Hard-on-Hard Technology for higher Contamination Tolerance
- Hydrodynamic Bearings for greater Shaft Support
- Compact Construction
- Ability to run on Low Viscosity and Fire-Resistant Fluids
- SAE Mounting

Proven Solutions for:

- Construction Machines
- Agricultural Applications
- Utility Machines
- Off-Shore Applications
- Material Handling
- Power Units

9000 Series — Axial Piston, Variable Displacement Pumps

Size	Displacement (in ³)	Rated Pressure (psi)	Peak Pressure (psi)	Max Input Speed (rpm)
048	2.93	5000	5800	2700
065	3.98	5000	5800	2700
075	4.60	3750	4250	2700
100	6.00	5000	5800	2400
130	7.94	3750	4250	2400
150	9.16	5000	5800	2400

Specific Features:

Required for Heavy to Medium Duty Applications
Four Way Pilot Control Valves for High-Response
