

NORTH AMERICAN HYDRAULICS

In-Line Power Transmissions

Providing Customer-Driven Solutions

North American Hydraulics, NAHI, LLC partnering with Dinamic Oil offering modular planetary gearboxes for both Mobile and Industrial Applications.

Our goal is to provide complete driven solutions by integrating the planetary drive with various input and output configurations, bevel gears, static brakes and a range of output shaft couplings and flanges.

Features and Options:

- Modular Construction
- Static, Pressure to Release Brakes
- Reinforced Output Supports, Eccentric Mounting and Integral Pinions for Slewing Applications
- Various Output Accessories, Foot Mounts and Torque Arms

Proven Solutions for the Following Applications:

- Agricultural
- Forestry
- Construction
- Marine
- Mining
- Transportation
- Power Generation

Torque values will vary by ratio. The above information should be used as a guide and is subject to change without notice. Please contact NAHI for proper selection.

RW Series — Winch Drive

RW Model	T ₂ FEM (lb-ft)	Ratio
510	5,531.7	13.8 to 189.3
610	7,375.6	13.4 to 201.9
810	9,219.5	14.1 to 207.3
1020	13,276.1	14.1 to 207.3
1520	18,439	17.4 to 233.4
2520	31,715.1	17.5 to 266.4
3000	34,665.3	15.8 to 236.5
3510	46,466.3	15.9 to 236.5
6000	55,317	62.5 to 154
8000	61,217.5	56 to 150
